Our fiduciary commitment is further described in our Code of Ethics. For more information regarding our Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

B. Advisory Services Offered

CorePath offers investment advisory services to individuals, high net worth individuals, families, trusts, estates charitable organizations, businesses and retirement plans (each referred to as a “Client”). CorePath provides individualized services to each Client, which are determined during initial conversations and updated over the course of the relationship as needed or requested by the Client. However, all services offered fall into the Investment Management Services, also known as Asset Management Services, and Financial Planning Services. Customized solutions for Client are achieved through continuous personal contact and interaction while providing discretionary investment management and financial planning services.

Investment Management Services

CorePath provides customized wealth management solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary investment management, financial planning and related advisory services. CorePath works closely with each Client on an ongoing basis. CorePath works closely with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to design and implement an investment strategy. CorePath will construct investment portfolios through the Advisor’s internal investment management and/or the use of unaffiliated investment managers or investment platforms. Please see below.

Internal Investment Management –CorePath works closely with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio strategy. CorePath will then construct a portfolio, consisting of primarily of exchange-traded funds (“ETFs”), mutual funds, individual equity securities, individual and fixed income securities. The Advisor may also utilize options and other types of investments, as appropriate, to meet the needs of each Client. Evaluation of legacy investments will include a review of portfolio fit, tax situation and other considerations. Do we need to mention any alternatives at this point?

Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor. CorePath will construct, implement and monitor the portfolio on a discretionary basis with respect to the Client’s investment policy statement.

At no time will CorePath accept or maintain custody of a Client’s funds or securities. All Client assets will be managed within their designated account[s] at the Custodian, pursuant to the Client investment advisory agreement. Please see Item 12 – Brokerage Practices and Item 15 - Custody.

Use of Independent Managers - CorePath may recommend that a Client utilize one or more unaffiliated investment managers or investment platforms (collectively “Independent Managers”) for all or a portion of a

Client's investment portfolio. In such instances, the Client may be required to authorize and enter into an advisory agreement with the Independent Manager[s] that defines the terms in which the Independent Manager[s] will provide investment management and related services. The Advisor may also assist in the development of the initial policy recommendations and managing the ongoing Client relationship. The Advisor will perform initial and ongoing oversight and due diligence over the selected Independent Manager[s] to ensure the Independent Managers' strategies and target allocations remain aligned with its Clients' investment objectives and overall best interests. The Client, prior to entering into an agreement with unaffiliated investment manager[s] or investment platform[s], will be provided with the Independent Manager's Form ADV 2A (or a brochure that makes the appropriate disclosures).

Financial Planning Services

Financial Planning Services are at the core of the Client relationship with CorePath. Financial planning is an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans while also understanding personal values, goals and objectives. Through the financial planning process, all questions, information and analysis are considered as they impact and are impacted by the entire financial and life situation of the Client.

CorePath will provide financial planning and consulting services to Clients pursuant to a written financial planning agreement. Services are offered in several areas depending on the Client's goals, objectives and financial situation. Generally, such financial planning services will involve a written report which provides the Client with a detailed financial plan to assist the Client in achieving his or her financial goals and objectives. This planning or consulting may encompass one or more areas of need, including but not limited to, financial position, tax considerations, employee benefits, investment analysis, insurance analysis, retirement analysis, death and disability considerations, and estate planning. Financial planning engagements may be fixed-scope projects or ongoing engagements, pursuant to the terms of the financial planning agreement.

Financial planning and consulting recommendations may pose a conflict between the interests of the Advisor and the interests of the Client. Implementation of financial planning recommendations is entirely at the Client's discretion. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to implement the transaction through the Advisor, its Advisory Persons or its affiliated entities. CorePath will work with Clients to implement recommendations and referrals to other professionals may be made where appropriate to meet the Client's needs.

CorePath provides advisory services on behalf of the retirement plans (each a "Plan") and the company/sponsor (the "Plan Sponsor") and the individuals enrolled in a Plan (the "Plan Participant"). The Advisor's retirement plan advisory services are designed to assist the Plan Sponsor in meeting its fiduciary obligations to the Plan and its Plan Participants. Due to the differences in size, complexity and overall needs of the Plan, each engagement is customized based on the requirements set forth by the Plan Sponsor. The Advisor's services may include:

- Analysis of Retirement Platforms and Vendors

- Discretionary Investment Management

Certain of these services are provided by CorePath serving in the capacity as a fiduciary under the Employee Retirement Income Security Act of 1974, as amended ("ERISA") pursuant to ERISA Rule 3(21). In accordance with ERISA Section 408(b)(2), the Plan Sponsor is provided with a written description of CorePath's fiduciary status, the specific services to be rendered and all direct and indirect compensation the Advisor reasonably expects under the engagement.

D. Wrap Fee Programs

CorePath does not manage or place Client assets into a wrap fee program. Investment management services are provided directly by CorePath.

E. Assets Under Management

CorePath is a newly established advisor. Assets under management shall be reported following the Advisor’s December 31, 2018 fiscal year end. Clients may request more current information at any time by contacting the Advisor.

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client engaging the Advisor for services described herein shall be required to enter into one or more written agreements with the Advisor.

A. Fees for Advisory Services

Investment Management Services

Investment advisory fees are paid quarterly, in advance of each calendar quarter, pursuant to the terms of the investment advisory agreement. Investment advisory fees are based the closing market value of the account[s] at the end of the prior calendar quarter. Investment advisory fees range from 0.50% to 1.75% annually based on several factors, including: the complexity of the services to be provided, the level of assets to be managed, reporting requirements, and the overall relationship with the Advisor. Relationships with multiple objectives, specific reporting requirements, portfolio restrictions and other complexities may be charged a higher fee.

The investment advisory fee in the first quarter of service is prorated from the inception date of the account[s] to the end of the first quarter. Fees may be negotiable at the sole discretion of the Advisor. The Client’s fees will take into consideration the aggregate assets under management with Advisor. All securities held in accounts managed by CorePath will be independently valued by the Custodian. CorePath will not have the authority or responsibility to value portfolio securities.

The Client may make additions or withdrawals from the account[s] at any time, subject to the Advisor’s right to terminate an account or the overall relationship. Additions may be in cash or securities provided that the Advisor reserves the right to liquidate any transferred securities or decline to accept particular securities into a Client’s account[s]. Clients may withdraw account assets on notice to CorePath, subject to the usual and customary securities settlement procedures. However, withdrawals from the Client’s account[s] may impede the Advisor’s ability to implement the investment strategy designed for the Client. Clients are advised that when such securities are liquidated, they may be subject to securities transaction fees, short-term redemption fees, and/or tax ramifications.

The Advisor's fee is exclusive of, and in addition to, brokerage fees, transaction fees, and other related costs and expenses, which may be incurred by the Client. However, the Advisor shall not receive any portion of these commissions, fees, and costs.

Use of Independent Managers

For Clients with account[s] implemented through an Independent Manager, the Client will be charged a fee for the investment management and related services provided by the Independent Manager, which is separate from the Advisor's fee as noted above.

Financial Planning Services

CorePath may include financial planning services as part of the overall investment advisory fee or offered separately. Engagements may be offered through either an hourly engagement, a fixed project fee or an ongoing annual retainer. The Advisor's hourly rate ranges from \$250 to \$500 per hour. Fixed fee engagements typically range from \$2,500 to \$5,000. Ongoing planning and advisory engagements may be offered at a fixed annual fee ranging from \$1,800 to \$36,000 annually billed monthly. Fees may be negotiable based on the nature and complexity of the services to be provided, the experience of the Advisory Person delivering the services, and the overall relationship with the Advisor. An estimate for total hours and/or costs will be provided prior to establishing the advisory relationship.

Retirement Plan Advisory Services

Fees for retirement plan advisory services are either charged an asset-based fee that is typically billed at an annual rate of up to 1.00% or a fixed annual fee. The fee is billed quarterly in advance, pursuant to the terms of the retirement plan advisory agreement. Fees are negotiable depending on the size and complexity of the Plan. Fees in the first quarter of the engagement are prorated from the effective date of the Agreement to the end of the first period.

B. Fee Billing

Investment Management Services

Investment advisory fees are calculated by the Advisor or its delegate and deducted from the Client's account[s] at the Custodian. The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] the start of each quarterly period. The amount due is calculated by applying the quarterly rate (Annual Rate divided by 4) to the market value of the account[s] under management at the end of the prior quarter. Clients will be provided with a statement from the Custodian at least quarterly reflecting deduction of the investment advisory fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the Custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting CorePath to be paid directly from their account[s] held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

Use of Independent Managers

For Clients with account[s] implemented through an Independent Manager, the Client's fee may be separately billed or deducted from the Client's account[s] by the Independent Manager.

Financial Planning Services we typically bill on a monthly basis for ongoing financial planning relationships.

Financial planning fees for project-based engagements may be invoiced up to fifty percent (50%) of the expected total fee upon execution of the financial planning agreement. The balance shall be invoiced upon completion of the agreed upon deliverable[s]. Financial planning fees for ongoing engagements are billed monthly, in advance of each month or thirty-day period from the effective date of the agreement.

Retirement Plan Advisory Services

Fees may be deducted from the assets of the Plan for each billing period, based on the market values in each Plan Participant's account at the end of the prior period. Fees may also be directly invoiced to the Plan Sponsor upon request.

C. Other Fees and Expenses

All fees paid to CorePath for investment advisory or financial planning services are separate and distinct from any and all other fees and expenses charged by broker-dealers/custodians, plan administrators, or any other expense associated with the Client's accounts. Investments in mutual funds and ETFs also have an internal expense ratio charged by the product. These fees are described in each mutual fund or ETF prospectus.

Custodians may charge securities transaction fees on purchases or sales of certain mutual funds, ETFs, individual equity securities, individual fixed income securities or other investment. They may also charge for certain services, e.g. wire transfers. See Brokerage Practices in Item 12.

D. Advance Payment of Fees and Termination

Investment Management Services

CorePath is compensated for its services in advance of each quarterly period. Either party may terminate the investment advisory agreement, at any time, by providing advance written notice to the other party. The Client may also terminate the investment advisory agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Advisor will promptly refund any unearned, prepaid advisory fees. The Client's investment advisory agreement with the Advisor is non-transferable without the Client's prior consent.

Use of Independent Managers

In the event that a Client should wish to terminate their relationship with an Independent Manager, the terms for termination will be set forth in the respective agreements between the Client and that Independent Manager. CorePath will assist the Client with the termination and transition as appropriate.

Financial Planning Services

CorePath is compensated for its services upon completion of the engagement deliverable[s]. Either party may terminate the financial planning agreement, at any time, by providing advance written notice to the other party. The Client may also terminate the financial planning agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Client shall be billed for work performed. Hourly engagements will be billed the actual hours worked by the Advisor. Fixed project fee engagements are billed based on a percentage of the engagement scope completed by the Advisor. Retainer engagements are based on the actual days in the month up to and including the effective date of termination. The Client's financial planning agreement with the Advisor is non-transferable without the Client's prior consent.

Retirement Plan Advisory Services

CorePath is typically compensated for its retirement plan advisory services in advance of each quarter in which services are rendered. Either party may request to terminate the retirement plan advisory agreement, at any time, by providing advance written notice to the other party. The Client shall be responsible for investment advisory fees up to and including the effective date of termination. Upon termination, the Advisor will promptly refund any unearned, prepaid advisory fees. The Client's retirement plan services agreement with the Advisor is non-transferable without the Client's prior consent.

E. Compensation for Sales of Securities

CorePath does not buy or sell securities and does not receive any compensation for securities transactions in any Client account, other than the investment advisory fees noted above.

However, Advisory Persons are also licensed as independent insurance professionals conducting business through CorePath Insurance Services, LLC or CorePath Risk Solutions, LLC, affiliates of the Advisor. As an insurance professional, an Advisory Person may also earn commission-based compensation for selling insurance products, including insurance products they sell to Clients. Insurance commissions earned by our Advisory Persons are separate and in addition to our advisory fees. This practice presents a conflict of interest

because the Advisory Person providing investment advice on behalf of the Advisor who is also an insurance agent has an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on the Client's needs. However, the Client is under no obligation, contractually or otherwise, to purchase insurance products through any Advisory Person affiliated with the Advisor. Please see item 10 below.

Item 6 – Performance-Based Fees and Side-By-Side Management

CorePath does not charge performance-based fees for its investment advisory services. The fees charged by CorePath are as described in "Item 5 – Fees and Compensation" above and are not based upon the capital appreciation of the funds or securities held by any Client.

CorePath does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

CorePath offers investment advisory services to individuals, high net worth individuals, families, trusts, estates charitable organizations, businesses and retirement plans CorePath generally does not impose a minimum size for establishing a relationship. However, certain investment strategies and/or Independent Managers may have a minimum to effectively implement a strategy.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

Investing in securities involves risk of loss that clients should be prepared to bear. Past performance is not a guarantee of future returns. The methods of analysis, tools and strategies utilized by CorePath may include any of the following:

***Fundamental Analysis* involves evaluating a security using real data such as company revenues, earnings, return on equity, and profit margins to determine underlying value and potential growth. Fundamental analysis may involve interest rate risk, market risk, business risk, and financial risk.**

***Cyclical Analysis* involves analyzing the cycles of the market. Cyclical analysis may involve inflation risk, market risk, and currency risk.**

***Behavioral Finance* proposes psychology-based theories to explain stock market anomalies. It assumes the information structure and the characteristics of market participants systematically influence the investment decisions of individuals as well as the market outcomes.**

***Asset Allocation* is an investment strategy used to balance risk and return according to a client's investment objective, risk tolerance and investment horizon. It is used to manage portfolio volatility by investment in different asset classes.**

***Diversification* is a risk management strategy used to reduce the volatility of a portfolio by investing in different asset classes, different market sectors, and/or different companies.**

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. CorePath will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals. While the methods of analysis help the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in these methods of analysis may lose value and may have negative investment performance.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. **Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.**

Item 9 – Disciplinary Information

There are no legal, regulatory or disciplinary events involving CorePath or any of its Supervised Persons. CorePath values the trust you place in us. As we advise all Clients, we encourage you to perform the requisite due diligence on any advisor or service provider with whom you partner. Our backgrounds are on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching by our firm name or our CRD# 299951.

Item 10 – Other Financial Industry Activities and Affiliations

Life and Disability Insurance

As noted in Item 5, certain Advisory Persons of CorePath may also be licensed insurance professionals under CorePath Insurance Services, LLC, an affiliate of the Advisor. CorePath Insurance Services provides life and disability solutions to Clients. Implementations of insurance recommendations are separate and apart from one's role with CorePath. As an insurance professional, an Advisory Person may receive customary commissions and other related revenues from the various insurance companies whose products are sold. The Advisory Person is not required to offer the products of any particular insurance company. Commissions generated by insurance sales do not offset regular advisory fees. This may cause a conflict of interest in recommending certain products of the insurance companies. Clients are under no obligation to implement any recommendations made by an Advisory Persons or the Advisor.

Insurance - Risk Solutions

As noted in Item 5, certain Advisory Persons of CorePath may also be licensed insurance professionals under CorePath Risk Solutions, LLC, an affiliate of the Advisor that provides property and casualty insurance services. Implementations of insurance recommendations are separate and apart from one's role with CorePath. As an insurance professional, an Advisory Person may receive customary commissions and other related revenues from the various insurance companies whose products are sold. The Advisory Person is not required to offer the products of any particular insurance company. Commissions generated by insurance sales do not offset regular advisory fees. This may cause a conflict of interest in recommending certain products of the insurance companies. Clients are under no obligation to implement any recommendations made by an Advisory Persons or the Advisor.

Tax and Accounting Services

Tax and accounting services may be offered through CorePath Tax Services, a business offering provided by JLAC Inc., a separate legal entity. CorePath may recommend that Clients engage CorePath Tax Services for tax and accounting strategies for individual, family and business services. Clients are not obligated to utilize the services of JLAC / CorePath Tax Services to establish or maintain an advisory relationship with CorePath.

HR and Employee Benefits Services

Human resources and employee benefit services may also be offered through CorePath HR. CorePath HR is provided by unaffiliated entities, Balance Benefits LLC and Archwood Benefits. Services typically include employee benefits, HR consulting and the design of employee benefit platforms for businesses. Clients are not obligated to utilize the services of JLAC / CorePath Tax Services to establish or maintain an advisory relationship with CorePath.

Use of Independent Managers

As noted in Item 4, the Advisor may recommend the use of one or more Independent Managers for the Client's investment portfolio. In such instances, the Advisor will only receive its advisory fee as noted in item 5.A. above. The Independent Manager may assume responsibility for calculating the overall fee and remitting the fee to the Advisor. The Advisors does not share in the fees of any Independent Manager and does not have any economic incentive to recommend one manager over another.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

CorePath has implemented a Code of Ethics (the "Code") that defines our fiduciary commitment to each Client. This Code applies to all persons associated with CorePath (our "Supervised Persons"). The Code was developed to provide general ethical guidelines and specific instructions regarding our duties to you, our Client. CorePath and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of CorePath's Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a range of topics that address employee ethics and conflicts of interest. To request a copy of our Code, please contact us at (480) 448-0334.

B. Personal Trading with Material Interest

CorePath allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. CorePath does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund, or advise an investment company. CorePath does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

CorePath allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities we recommend (purchase or sell) to you presents a conflict of interest that, as fiduciaries, we must disclose to you and mitigate through policies and procedures. As noted above, we have adopted the Code to address insider trading (material non-public information controls); gifts and entertainment; outside business activities and personal securities reporting. When trading for personal accounts, Supervised Persons may have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can potentially be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by CorePath requiring reporting of personal securities trades by its Supervised Persons for review by the Chief Compliance Officer ("CCO"). We have also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While CorePath allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterwards. **At no time will CorePath, or any Supervised Person of CorePath, transact in any security to the detriment of any Client.**

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

CorePath does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets

and authorize CorePath to direct trades to the Custodian as agreed upon in the investment advisory agreement. Further, CorePath does not have the discretionary authority to negotiate commissions on behalf of our Clients on a trade-by-trade basis.

Where CorePath does not exercise discretion over the selection of the Custodian, it may recommend the Custodian[s] to Clients. Clients are not obligated to use the recommended Custodian and will not incur any extra fee or cost associated with using a broker not recommended by CorePath. However, if the recommended Custodian is not utilized the Advisor may be limited in the services it can provide to the Client comparable to other Clients. CorePath may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, its reputation, and/or location of the Custodian's offices. CorePath will generally recommend that Clients establish their account[s] at Fidelity Clearing & Custody Solutions and related entities of Fidelity Investments, Inc. (collectively "Fidelity"). Fidelity is a FINRA-registered broker-dealer and member SIPC and will serve as the Client's "qualified custodian". CorePath maintains an institutional relationship with Fidelity whereby the Advisor receives economic benefits from Fidelity. Please see Item 14 below.

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with the broker-dealer/custodian in exchange for research and other services. **CorePath does not participate in soft dollar programs sponsored or offered by any broker-dealer/custodian. However, the Advisor receives certain economic benefits from Fidelity. Please see Item 14.**

2. Brokerage Referrals - CorePath does not receive any compensation from any third party in connection with the recommendation for establishing an account.

3. Directed Brokerage - All Clients are serviced on a "directed brokerage basis", where CorePath will place trades within the established account[s] at the Custodian designated by the Client. Further, all Client accounts are traded within their respective brokerage account[s], unless separately instructed by the Client. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor's own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client's account[s]). In selecting the Custodian, CorePath will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the Custodian.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results considering such factors as 1) price, 2) size of order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the Custodian. CorePath will execute its transactions through the Custodian as authorized by the Client. CorePath may aggregate orders in a block trade or trades when securities are purchased or sold through the same broker-dealer for multiple (discretionary) accounts in the same trading day. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage any particular Client accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by Advisory Persons of CorePath and periodically by the CCO. Formal reviews are generally conducted at least annually or more or less frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more or less frequently at the Client's request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client's financial situation, and/or large deposits or withdrawals in the Client's account[s]. The Client is encouraged to notify CorePath if changes occur in the Client's personal financial situation that might adversely affect the Client's investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian's website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client's account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 – Client Referrals and Other Compensation

A. Compensation Received by CorePath

CorePath does not receive commissions from product sponsors or broker-dealers, except as detailed in Item 10 above. CorePath may refer Clients to various unaffiliated professionals (e.g. attorneys, accountants, estate planners) to provide certain financial services necessary to meet the goals of its Clients. Likewise, CorePath may receive non-compensated referrals of new Clients from various third-parties.

Participation in Institutional Advisor Platform

CorePath has established an institutional relationship with Fidelity to assist the Advisor in managing Client account[s]. Access to the Fidelity platform is provided at no charge to the Advisor. The Advisor receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Fidelity. The software and related systems support may benefit the Advisor, but not its Clients directly. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a Custodian creates a potential conflict of interest since these benefits may influence the Advisor's recommendation of this Custodian over one that does not furnish similar software, systems support, or services.

Additionally, the Advisor has received financial support from Fidelity to assist the Advisor in the launch of its advisory firm. The following benefits are also received from Fidelity: reimbursement to Clients for transfer costs to the platform/custodian; financing services, receipt of duplicate Client confirmations and bundled duplicate statements; access to a trading desk that exclusively services its institutional participants; access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to Client accounts; and access to an electronic communication network for Client order entry and account information.

B. Client Referrals from Solicitors

CorePath does not engage paid solicitors for Client referrals.

Item 15 – Custody

All Clients must place their assets with a "qualified custodian". Clients are required to engage the Custodian to retain their funds and securities and direct CorePath to utilize that Custodian for the Client's security transactions. CorePath does not accept or maintain custody of any Client accounts, except for the authorized deduction of the Advisor's fees or authorized transfers on the Client's behalf. If the Client gives the Advisor authority to move money from one account to another account, the Advisor may have custody of those assets. In order to avoid additional regulatory requirements in these cases, the Custodian and the Advisor have adopted safeguards to ensure that the money movements are completed in accordance with the Client's instructions.

Clients should review statements provided by the Custodian and compare to any reports provided by CorePath to ensure accuracy, as the Custodian does not perform this review. For more information about custodians and brokerage practices, see “Item 12 - Brokerage Practices”.

Item 16 – Investment Discretion

CorePath generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by CorePath. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client’s execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by CorePath will be in accordance with each Client’s investment objectives and goals.

Item 17 – Voting Client Securities

CorePath does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. If the Client elects to direct proxies to the Advisor, such election does not result in the authority for the Advisor to vote such proxies. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 18 – Financial Information

Neither CorePath, nor its management, have any adverse financial situations that would reasonably impair the ability of CorePath to meet all obligations to its Clients. Neither CorePath, nor any of its Advisory Persons, has been subject to a bankruptcy or financial compromise. CorePath is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect fees of \$1,200 or more for services to be performed six months or more in advance.
